

Master the Officer Candidate Tests, 9th Edition
978-0-7689-3780-0

Please note the following updates and corrections for Master the Officer Candidate Tests, 9th Edition. The corrections indicated below are made when the book is reprinted, so the copy you have purchased may already incorporate some or all of these corrections.

BOOK PAGE	CORRECTIONS
Front matter, page <i>x</i>	<p>The section containing the link to the online practice tests was omitted. It should read:</p> <p style="text-align: center;">ACCESS PRACTICE TESTS ONLINE</p> <p>Peterson's is providing you with access to two additional practice tests online. The testing content on these practice tests was created by the test-prep experts at Peterson's. The Peterson's online testing experience resembles the testing experience you will find on an actual AFOQT or ASTB exam. Access the online tests at http://www.petersonspublishing.com/OfficerCandidate Enter your email address, and Peterson's will e-mail you an activation code and the links needed to access the online practice tests.</p>
Page 195	Answer explanation 4 , the denominator of the first fraction should read: 63×24
Page 196	Answer explanation 28 , the third line of the sum should read: 3hrs. at 5mph = 15 miles
Page 244	Question 6 should read: What effort must be exerted to lift a 60-pound weight in the figure of a lever shown above, where $a = 8$ and $A = 15$ (disregard weight of lever in your computation)?
